**The winner  
takes it all...**

because music matters

More than 40,000 readers of the magazines Audio and Stereoplay chose the best HiFi- and AV-equipment

## Premium - Hifi

Excellent tonal properties, the most modern audio-stereo-technology and outstanding workmanship are the characteristic features of the exclusive Premium stereo-components made by Marantz, which are given a remarkably high level of acceptance by discriminating music lovers. The readers of the Audio and Stereoplay magazines have demonstrated their recognition of this situation in an impressive manner by the way they have voted.

## Range - Hifi

If you listen to the stereo-components of the Marantz Range-Series you will find it difficult to believe that such remarkable tonal properties are available at this attractive price. Surprise yourself and enjoy your favourite music in pure cultured sound.

The combination of PM7000, CD6000 OSE and ST6000 identified as the "Audio kit of the century" was chosen by Stereoplay to take the 1st Place in 2001 and the 2nd Place in 2000

## Range - Audio Video

The challenge to produce a combination of tonal quality and multi-channel technology at the highest level accompanied by a moderate price to arrive at three-way harmony has been convincingly met by Marantz in the components of the Range-Series.

## Our grateful thanks!

On an international basis, Audio and Stereoplay belong to the most important monthly magazines which concern themselves with entertainment electronics. Every year the editorial staffs invite their readers to select the best items of equipment for the year concerned out of several hundred suggestions. Because of the high number of participants (more than 40,000 in total) involved in reader selections for "Das Goldene Ohr" (The Golden Ear) and "Das Gerät des Jahres" (The top equipment of the year), those items of equipment which are awarded the first three places enjoy the highest recognition by the experts in the field. In recent years, these readers have regularly chosen Marantz products and systems for these awards. We take this opportunity to thank the readers of the Audio and Stereoplay magazines most warmly for the high level of confidence they have shown in our products.
