

SUBWOOFERS OF THE YEAR

SUB BRAVO - SUB OF THE YEAR

NORWAY: DVD og Hjemmekino, no 1, 2004

"Sub Bravo, dressed in silver, impressed the test pilots to a degree close to chock. Despite its modest appearance, this sub plays as if it is possessed, yet in full control. Words that remain in the air after the test; dynamic, powerful and responsive. In other words, almost a 10."

SUB BRAVO - POWER

NORWAY: DVD og Hjemmekino, no 4-5, 2003

"Sub Bravo is a very fun subwoofer. The powerful amplifier pushes the element so far that we almost thought it was going to pop out of the cabinet when we played it at the loudest. But it kept standing in place. The compact outer casing might contribute to the level of surprise. Nevertheless, it really sounds great. You'll find control, details, substance, depth and volume."

"Sub Bravo is an impressive subwoofer. It just sounds right even though it is difficult to put a finger on exactly what it is that makes it so. It sounds right even though it is difficult to put a finger on exactly what it is that makes it so. The sound just fits and gets the necessary tranquillity in order to notice the dynamic. Almost a bull's eye, according to us."

SUB FOCUS - SUB OF THE YEAR

SWEDEN: HiFi & Musik, no 12, 2003

"We have become used to the fact that Audio Pro Subwoofers have extremely good bass for a very reasonable price. Sub Focus is no exception! Testwinner in no 5."

SUB FOCUS - NICE BASS SLEDGE

SWEDEN: HiFi & Musik, no 12, 2003

"This is a subwoofer worth its price no matter if you are a hometheater-fan och a more particular HiFi-enthusiast."

"We don't know how Audio Pro succeeds, but should we choose a winner, it will be the Sub Focus. It combines qualities such as depth, punch and stability. The fine room connection is a nice bonus. And who can say anything about the price."

SUB FOCUS - SUB OF THE YEAR

SWEDEN: Hemmabio, no12, 2002

"With its ace-bass technique and the long-throw 10" woofer, SUB FOCUS fills most rooms with powerful bass."
